Panoramic Padel Court

Panoramic courts are designed with four corners, featuring side iron columns and a full glass facade made from 12mm thick, 3-meter tempered glass for durability and clear visibility.

Padel court sizes

- 20m length x 10m width
- Steel tubing height: 3m & 4m
- Tube 3mm (about 0.12 in) for the corner.
- Steel mesh thickness: 4mm (about 0.16 in)

Glass

Tempered glass: 12mm (about 0.47 in) thickness, stainless steel screws with rubber. With glass supporting two panels

Artificial Grass

The artificial grass comes with resistance against UV damage, provided it is installed according to the specified surface markings.

The grass thickness ranges from 10mm to 13mm and is topped with scattered silica sand. The installation also involves rubber granules, joint rolls, and adhesive glue.

Padel Net

The net must be 10 meters in length and 0.88 meters high at the center, increasing to 0.92 meters at the ends, with a maximum tolerance of 0.005 meters. It is suspended by a metal cable with a maximum diameter of 0.01 meters. The ends of the net are attached to two lateral posts, each with a maximum height of 1.05 meters, or to a part of the court structure that ensures proper suspension and tension.

LED Lights

- LED IP-66 Rated
- LED pole total height: 6m
- Supply of 04m Padel cotton net fence.
- Padel Post (2pc): 1m height, dimensions: 8x8
- Safety plastic cover for all nailed.

Super Panoramic Padel

Super Panoramic padel courts are the newest and most premium option available, featuring a cutting-edge design with no side pillars, which offers a sleek and contemporary look, and includes enhancements such as an integrated sound system, imaging and charging systems, and a modern lighting system with advanced controls that together elevate the court's aesthetics and professionalism.

Court Features :

Steel tubing height: 3m & 4m
 Tube 3mm (about 0.12 in) for the corner.
 Steel mesh thickness: 4mm (about 0.16 in)

01 Glass:
 Tempered glass: 12mm (about 0.47in) thickness, stainless steel Screws with rubber. With glass supporting two panels

02 Grass:
 Artificial grass with a UV protection featuring a thickness of 10mm to 13mm and a silica sand top layer.

03 Padel Net:
 The net is 10 meters long, 0.88 meters high at the center, and 0.92 meters at the ends, with a tolerance of 0.005 meters. It is suspended by a metal cable, 0.01 meters in diameter, attached to two lateral posts.

04 Safety:
 The padel court's protective column is a one-meter high, high-quality foam structure designed for safety.

05 Light Court Padel:

 20m Length x 10m Width

Mini Padel Court

Beautifully designed court, Ideal for both adults and children to enjoy a simplified version of the game.

Can be tailored to fit unique spaces.

Glass:

Tempered glass with a 12mm thickness, secured with stainless steel screws and rubber. The glass supports two panels. Standard glass dimensions are 2m x 3m, with a stainless steel finish.

Grass:

Artificial grass with a UV protection featuring a thickness of 10mm to 13mm and a silica sand top layer.

Net:

Supply of 6m padel cotton net fence.

Safety:

Padel Post (2pc): 1m height, dimensions: 8x8 Tow racket and three ball free

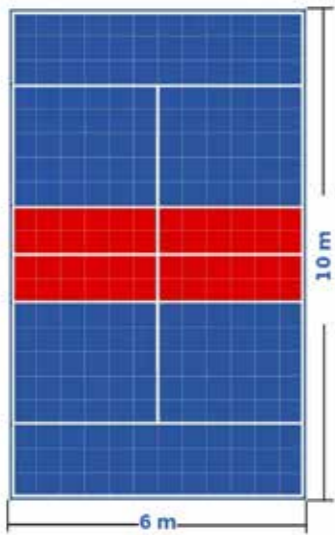

Mini Padel Court Size :
 Padel Court dimensions :
 10m Length x 6m Width

Padbol Court (Football & Tennis)

Padbol is a relatively new sport that combines elements of football (soccer), padel, and volleyball, creating a fast-paced and dynamic game. It was invented in Argentina in 2008 and has since gained popularity in various countries, particularly in Europe and Latin America.

Court and Equipment:

Padbol Court Size

Court Size:

The padbol court is smaller than a football or padel court, typically measuring around 10x6 meters. It is divided into two halves by a net, similar to a tennis or padel court.

Walls:

Like padel, the court is enclosed by walls, which are also part of the game, allowing for rebounds and strategic plays.

Ball:

This 670mm, 360-390g ball prioritizes your health. Its lightweight reduces the risk of headaches caused by heading the ball, making it the ideal choice for optimal and safe performance

Football Field

We have extensive experience in installing football fields that adhere to the latest international standards. Football, along with its stadiums, remains one of the most sought-after sports worldwide. Our core services include infrastructure development, turf installation, lighting systems, safety nets, and construction solutions. The scope of work involved in football field installation encompasses the following aspects:

Flooring Work:

Self-Leveling Layer: Creates a smooth surface.

Catch Layer: Adds stability.

Road Base Layer: Provides a solid foundation.

Black Sand Layer: Enhances drainage and stability.

Tamping: Compacts and solidifies all layers.

Grass:

grass for football stadium we have many type of Grass in terms of length:

50 mm

60 mm

Line Marking:

Must follow Field of Play Dimensions.

Width should not exceed 12cm, as per FIFA Laws of the Game.

Goals:

We provide goals in different sizes that are compatible with the size of the field and in accordance with international specifications

Fence:

PVC Coated Chain Link Fence with M.S. Pipe, fully PVC coated.

Basketball Court

Basketball is a popular team sport renowned for its fast-paced action, skillful ball-handling, and thrilling plays. The main goal is to score points by shooting a ball through the opponent's hoop—an elevated, circular basket with a net. Points are awarded as follows: two points for a field goal and one point for a free throw.

Court and Equipment:

Court Size:

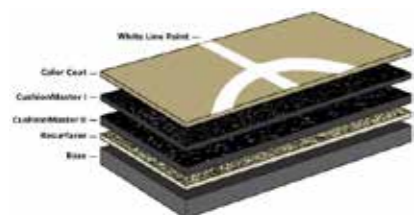

A standard basketball court is rectangular and measures 28 by 15 meters (94 by 50 feet).

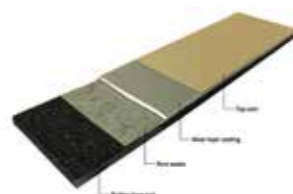

Floor Applications Used in Basketball Court Construction:

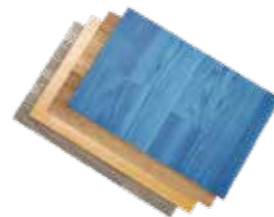

Acrylic Floor

Polyurethane Floor

PVC Floor

Volleyball Court

As your trusted partner for volleyball courts, we offer everything you need, from construction to upgrades. Our comprehensive services and equipment ensure that your court meets the highest standards. We specialize in delivering superior volleyball court surfaces and all the essential components for a premium playing environment.

Court Surface Options:

Indoor Courts:

High-quality hardwood or synthetic surfaces designed for optimal traction and player safety.

Outdoor Courts:

Durable, weather resistant surfaces, including sand for beach volleyball or cushioned synthetic materials for all-weather play.

Line Marking:

Precise and durable line markings that adhere to official volleyball dimensions, ensuring a clear and accurate playing field.

Net Systems and Accessories:

Installation of high-quality net systems, including adjustable posts, durable nets, and padding for player safety.

We also provide boundary markers, antennae, and other essential court accessories.

Tennis Court

Tennis is a classic, fast-paced sport with roots in the late 19th century. It has become a globally popular game, especially in Europe, North America, and Australia.

Court and Equipment:

Court Size:

A standard tennis court is rectangular, measuring 23.77 meters (78 feet) in length and 8.23 meters (27 feet) in width for singles matches. For doubles, the width extends to 10.97 meters (36 feet). The court is divided by a net standing 0.91 meters (3 feet) high at the center.

Surface Types:

Tennis courts can be made of various surfaces, including hard courts (asphalt or acrylic), clay, grass, or synthetic turf. Each surface affects the ball's speed and bounce, influencing the style of play.

Badminton Court

Badminton is a fast-paced racquet sport where players aim to score points by hitting shuttlecock over the net and into the opponent's court. Points are earned for successful shots and faults, with matches typically played to 21 points.

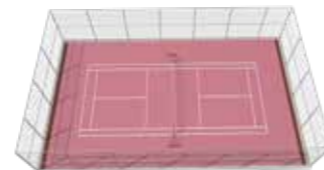

Court and Equipment:

Court Size:

A standard badminton court is rectangular, measuring 13.4 meters (44 feet) in length and 5.18 meters (17 feet) in width for singles matches. For doubles, the width extends to 6.1 meters (20 feet). The court is divided by a net at the center.

Surface Types:

Badminton courts are typically made of wood or synthetic materials that provide good traction and cushioning, ensuring player safety and optimal performance.

Cricket Pitch

Cricket is a bat-and-ball game played between two teams of 11 players on a circular or oval field. The main goal is to score runs by hitting the ball and running between the wickets, while the opposing team aims to dismiss the batsmen.

Cricket Field Dimensions:

Overall Diameter: The field is generally circular or oval, with a diameter ranging from 137.16 meters (450 feet) to 150 meters (492 feet).

Pitch Dimensions

Length: The pitch is 22 yards (20.12 meters) long.

Width: The pitch is 10 feet (3.05 meters) wide.

Artificial Turf:

Synthetic grass designed to mimic natural turf, often used in practice facilities, schools, and community grounds.

Consistent bounce and pace with minimal maintenance.

Golf Field

Golf is a precision sport where players use various clubs to hit a ball into a series of holes on a course in as few strokes as possible. Each course is unique, designed with a variety of terrains and obstacles, offering different levels of difficulty.

Golf Course Dimensions

Standard Course: Typically consists of 18 holes.

Total Length: A standard 18-hole course ranges from 5,000 to 7,500 yards (4,570 to 6,860 meters).

Hole Lengths:

Par 3: 100–250 yards (91–229 meters)

Par 4: 251–475 yards (230–434 meters)

Par 5: 476–650 yards (435–594 meters)

Artificial Grass for Golf:

Synthetic turf designed to mimic natural greens, ideal for indoor and outdoor practice facilities.

Artificial putting greens with realistic ball roll and minimal maintenance.

Ping Pong

Ping Pong Tables (Tennis Table)

Designed for exceptional performance and durability, our ping pong tables are perfect for players of all levels. With a variety of designs and sizes, our tables offer a sturdy build, a flawless playing surface, and convenient storage, making them ideal for everyone from beginners to professionals.

Billiard

Billiard Tables:

Enhance your space with our meticulously crafted billiard tables, designed for both professionals and enthusiasts. Featuring a perfectly engineered playing surface, these tables ensure smooth, fast, and consistent ball movement, delivering a top-tier playing experience.

Air Hockey

Air Hockey Tables:

Elevate the excitement with our high-performance air hockey tables. Suitable for all ages, these durable tables offer fast-paced fun with powerful fans for smooth puck movement and optional LED lighting and sound effects for an enhanced gaming experience.

Foosball Tables

Foosball Tables (football table):

Perfect for all ages, our foosball tables offer a fun and challenging experience. Built with a sturdy design for lasting durability, they feature smooth control rods for precise gameplay. Ideal for homes, sports clubs, and offices, these tables add excitement to any space.

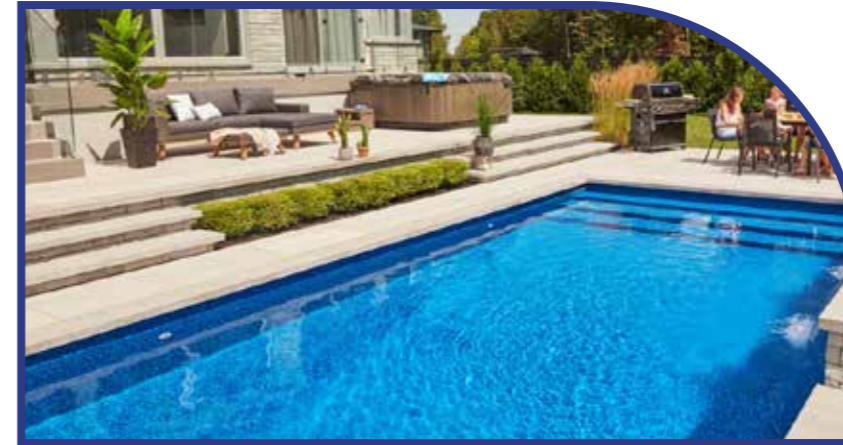

Swimming Pool

We specialize in offering a full range of services for three types of swimming pools:

Vinyl Pools: Versatile and cost-effective, our vinyl pools come in various shapes and sizes with durable, customizable liners.

Fiberglass Pools: Known for low maintenance and quick installation, our fiberglass pools are designed for durability and ease of care.

Concrete Pools: Offering limitless customization, our concrete pools are tailored to reflect your vision, perfectly complementing your outdoor space.

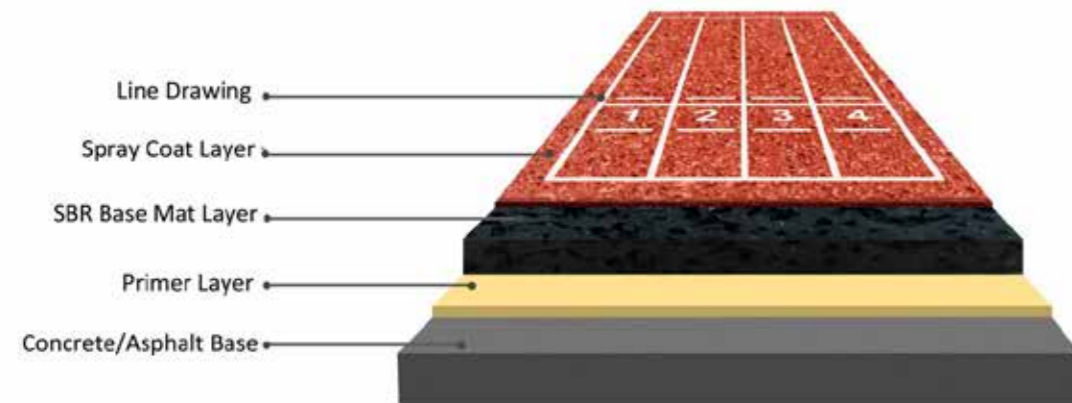

Team Shelter Stadium Seats

Our Team Shelters offer reliable protection from the elements, ensuring players and staff stay comfortable in any weather. Constructed from durable materials, these shelters are ideal for sports facilities. Customizable to match your facility's design, our Team Shelters are a perfect addition to enhance your sports ground.

Our durable, weather-resistant stadium seats provide comfort and protection for players and spectators. Designed for long-lasting use and available in customizable designs, they are perfect for enhancing the look and functionality of any sports facility.

EPDM Running Track

Surface layer

Material: EPDM particle + polyurethane runway glue

Elastic layer

Material: pure EPDM granule + environmental protective polyurethane sizing agent

Waterproof binder

Material: one-component polyurethane binder

Foundation:

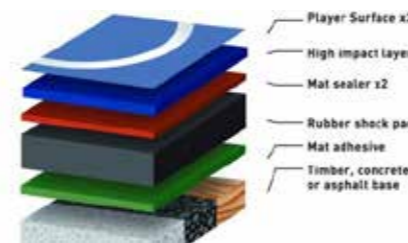

Cement and asphalt

1-Weather Resistance: EPDM exhibits outstanding weather and UV resistance, making it an ideal choice for outdoor applications. It can withstand prolonged exposure to sunlight, rain, and temperature fluctuations without degrading.

2-Durability: EPDM is highly durable, with a remarkable ability to resist wear and tear. It has a long service life, even in harsh conditions.

Sport Flooring

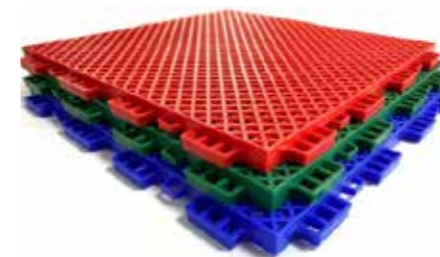

Rubber Flooring

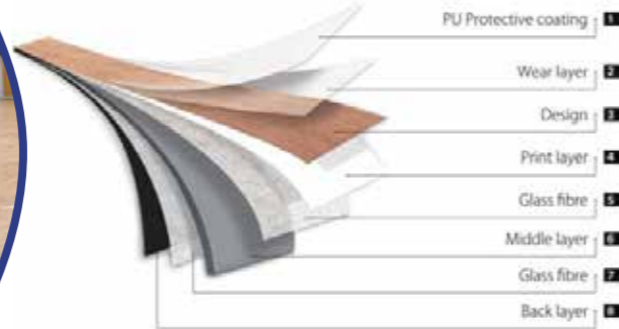

The sports rubber flooring is a durable, environmentally friendly material that offers excellent UV and wear resistance. Free of asbestos, lead, and mercury, it is suitable for both indoor and outdoor use in various sports courts and recreational areas. Available in multiple colors, including custom options, it is commonly used in schools, parks, and other public spaces

PP Tile Flooring

Durable and versatile, our PP tile flooring is ideal for both indoor and outdoor sports areas. Made from high-quality polypropylene, these easy-to-install tiles offer excellent weather, wear, and impact resistance. Available in various colors, they're perfect for courts, playgrounds, and more. The interlocking design ensures a secure fit, providing comfort and safety.

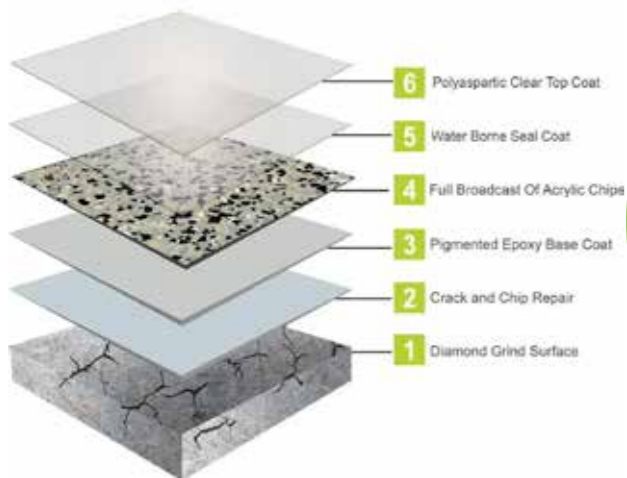

Vinyl Flooring

Vinyl flooring is a durable, affordable, and versatile option for both residential and commercial spaces. It offers a wide range of design choices, mimicking materials like wood, stone, and ceramic tiles. Known for its water resistance and easy maintenance, vinyl is also comfortable underfoot and can withstand heavy foot traffic, making it ideal for various environments.

Acrylic Flooring

Acrylic sports flooring is a durable, UV-resistant option ideal for various sports courts. It offers a non-slip surface, consistent ball bounce, and player comfort, making it suitable for both indoor and outdoor use. Available in multiple colors, it ensures optimal performance with easy installation and maintenance.

Kids Play Area

Designed for safety and fun, our kids play area flooring is durable, shock-absorbent, and slip-resistant. It provides a cushioned surface to protect children from falls and injuries, making it ideal for playgrounds, schools, and recreational areas. Available in vibrant colors and playful designs, this flooring enhances the play experience while ensuring easy maintenance and long-lasting performance.

Foundation: Cement or Asphalt

Waterproof Binder:

Made from one component polyurethane, this binder offers superior waterproofing and strengthens the foundation by enhancing adhesion.

SBR Layer: Consists of cryogenically treated rubber filler.

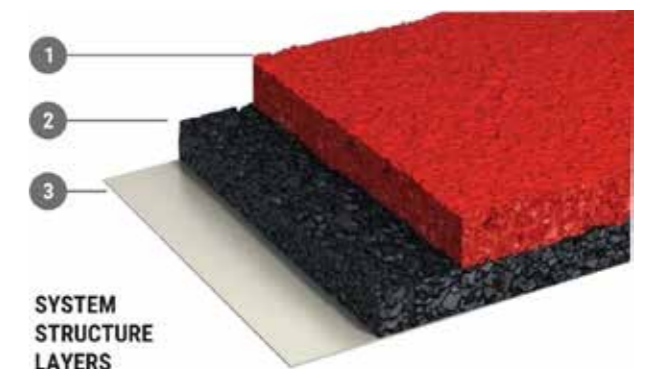

Elastic Layer: Composed of pure EPDM granules mixed with eco-friendly adhesive, this layer is odorless, oil-free, and easy to install, prioritizing environmental protection.

Kids Equipment

Our kids' equipment includes durable play structures, interactive panels, and safety surfacing designed for engaging and safe play. Features vibrant colors, inclusive designs, and impact-absorbing surfaces to ensure fun and safety for all children.

Sports Equipment

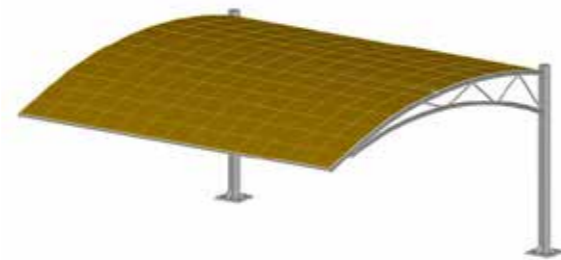

Sports Equipment : We offer a complete range of sports equipment to cater to athletes, sports enthusiasts, and teams. Our selection includes balls, bats, and protective gear for contact sports, as well as footwear, apparel, and accessories for various athletic activities. From team sports to individual and recreational pursuits, our diverse inventory features high-quality equipment for all your sporting needs.

Sun Shades

Shades : Shades are versatile solutions designed to enhance outdoor spaces by providing protection, privacy, and aesthetic appeal. Our shading systems are essential for transforming patios, outdoor living areas, and open spaces into comfortable, weather-resistant environments. Whether shielding from harsh sunlight or creating a cozy atmosphere, our shades allow you to enjoy the outdoors in any weather condition.

Gym Flooring & Equipment

Our gym flooring is durable, shock-absorbent, and slip-resistant, providing a safe and cushioned surface for workouts. It's ideal for fitness centers, home gyms, and recreational facilities, offering long-lasting durability and easy maintenance. Paired with our high-quality gym equipment—ranging from cardio machines to strength-training gear—you can create a complete, professional-grade workout environment tailored to all fitness levels.

Benefits of Rubber GYM Flooring

Injury Prevention: Rubber flooring provides a cushioned surface that is soft on joints, aiding in injury prevention during activities like gymnastics and yoga. It's anti-slip and protects both the floor and equipment from damage.

Versatility: Rubber flooring can be molded into various shapes, colors, and designs, including gym logos. It comes in options like tiles or rolled flooring.

Durability: This flooring is long-lasting, capable of withstanding high foot traffic and the weight of gym equipment.

Noise Reduction: Rubber flooring absorbs sound, reducing noise in areas with heavy foot traffic.

Water and Chemical Resistance: Rubber flooring is resistant to moisture and chemicals, preventing stains, mold, and mildew.

Forsan
Alamal Alsarea

We specialize in installing football fields with premium artificial grass, meeting the latest international standards. Our services include infrastructure setup, professional turf installation, lighting, safety nets, and building systems, delivering a top-quality, durable, and low-maintenance playing surface

Forsan
